

I Love Science

Making children fall in love with science

A unique education model conceptualized and designed to help children develop an interest in science through activity-based, practical experiments. Our Science kits and workshops are designed for students from grades 4 to 8, since this is the apt age for children to start enjoying science.

Five Principles of Our Design

Make it fun

Mapped to curriculum

Observation over formulae

Relate to everyday life

Affordable material

Class 6th to 8th

Electricity, Magnetism, Reflection and Refraction of light, Acids and Bases, Newton's laws and Mechanics, Sound waves, Microscope and Plant cells, Air pressure, ... **& more**

Class 4th & 5th

Moving images, Energy toys, Gravity toys, 3D vision & Visual illusions, Math magic, Shapes & puzzles, Structures, Geoboard, Measurements ... **& more**

Teacher training sessions

Students enjoying science with our kits

Specially designed kits for Primary class students

Testimonials

Dr Pratima Lall
Vice Principal

Somerville School

“Workshops from ‘I Love Science’ have been met with a lot of excitement and enthusiasm from our students, and we find that the sessions have been helping generate a greater interest in science.”

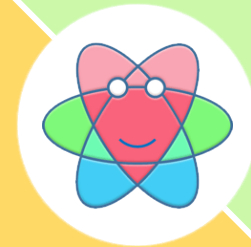

“Science kits from ‘I Love Science’ helped in inciting curiosity, exploration and self-discovery among the students.”

Dr Ruchi Seth
Principal

Lotus Valley
INTERNATIONAL SCHOOL

Bata

Mahima Chandra
Group Manager, CSR

“Creative and fun workshops from ‘I Love Science’ have been beneficial for students and have helped improve their interest in science.”

“In the ‘I Love Science’ workshop, Adobe volunteers learnt creative ways of science fundamentals. The excitement of kids was immense, full of exuberance for having learnt something new!”

Sonal Dhir
Program Manager
Brand Purpose

“‘I Love Science’ kits have generated excitement amongst the school children. We have also been able to generate the teachers' interest in focusing on learning by doing.”
